

CSX7000 in USRRRC Trim - Street Legal

CSX7000 (FIA) and CSX8000 (Slab Side)

The CSX 7000 (289 FIA) and CSX 8000 (289 Street) are authentic Shelby Cobra 289 models. The Shelby Cobra legend and racing success began with these cars, terrorizing race tracks around the world from 1962 through 1965. Today's CSX 7000 and CSX 8000 component vehicles incorporate safety and performance improvements without sacrificing driving excitement or originality. CSX 7000 and CSX 8000 bodies are available in fiberglass or aluminum.

CSX8000 - "Slab Side"

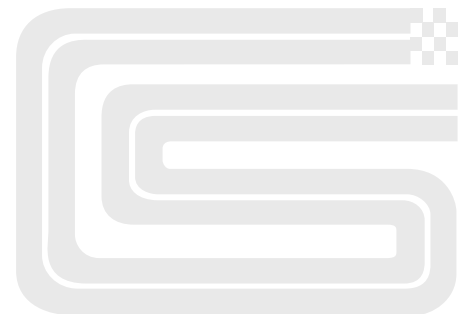

CSX7000

This is the race version of our original 1962 Cobra street roadster. The 289 FIA Cobra dominated tracks throughout the 1960s and was developed into the Cobra Daytona Coupe which won the World Manufacturer's Championship beating out Ferrari in FIA competition in 1965. Our current line of 289 FIA Cobras features upgraded components but we held onto the transverse leaf spring suspension to maintain the driving feel of the 1960s. They're available today as the CSX7000-series Cobra in either aluminum or fiberglass.

CARROLL SHELBY

July 6, 2006

Mark Logan, President
Shelby Cars NW
521 NE 74th
Portland, OR 97213

Dear Mark,

On behalf of all of us at Shelby Automobiles, Inc., I want to congratulate you on your sales and marketing achievements for 2005.

Last year your company, Shelby Cars NW, was the highest volume, authorized Shelby dealer in the world. You sold more new CSX series Cobras than the second, third, and fourth place dealers combined. That's quite a record, and one I hope you repeat in the years to come.

Thanks again, Mark. We appreciate all of your hard work, and look forward to your continued success as a dealer for Shelby Automobiles, Inc.

Your Friend,

CARROLL SHELBY
